Lakefront Home

Designed by Josh Youngner

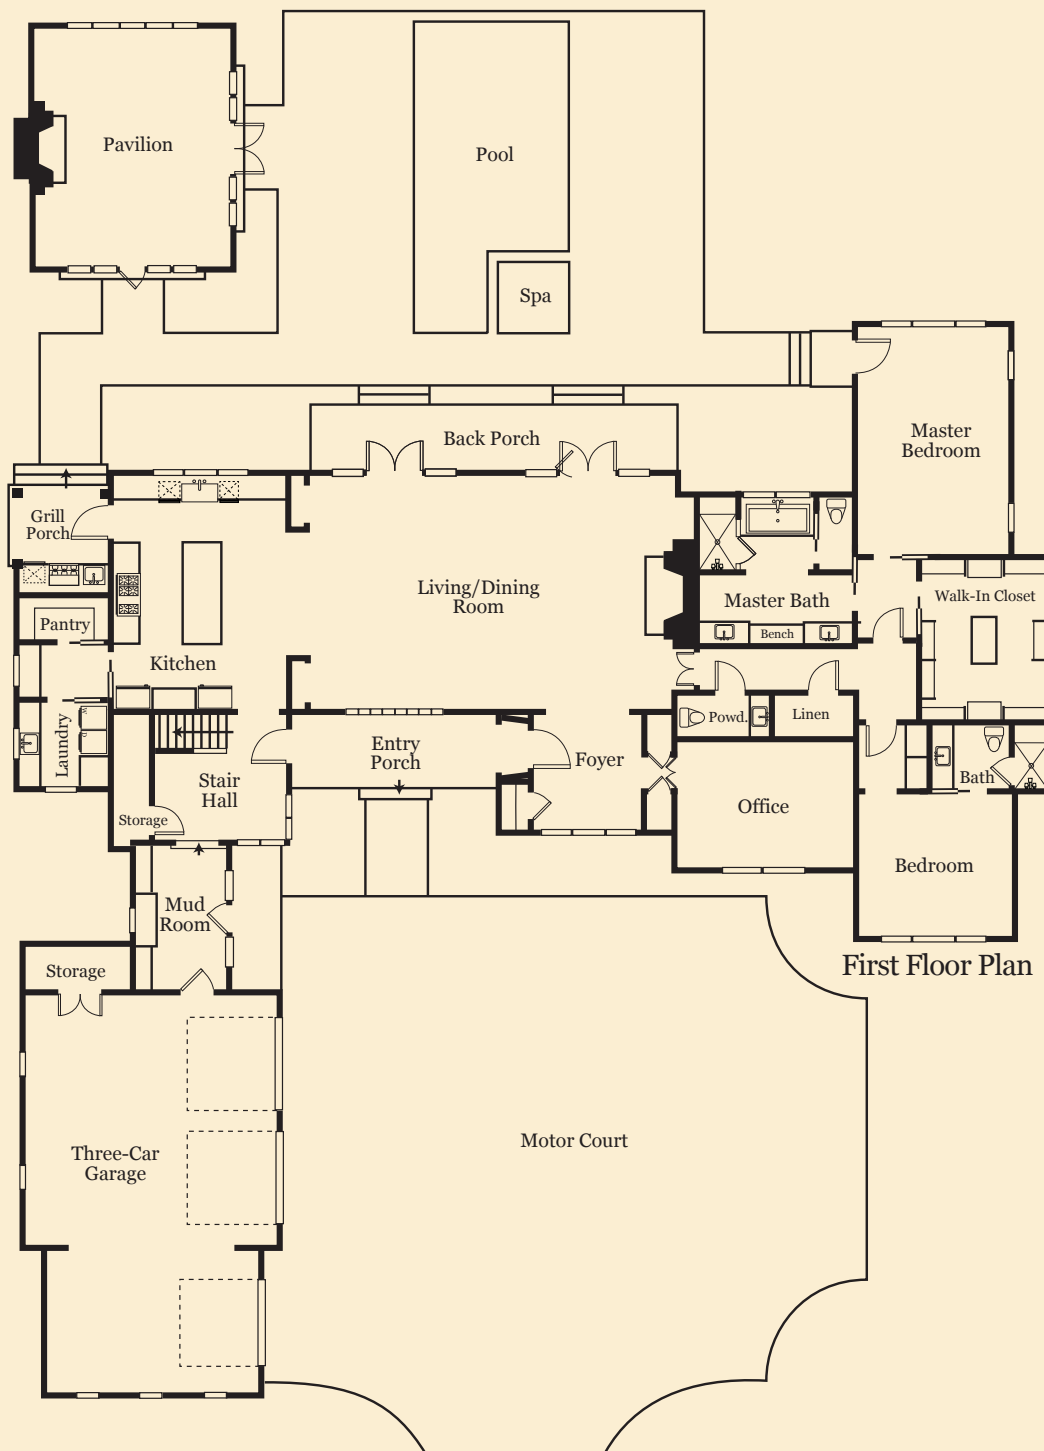

Constructed by Flanagan Development

Wonderful coastal retreat featuring panoramic lake views in this thoughtfully designed home. The floor to ceiling arched window in the entry offers the first look into the expansive vista beyond. From the living and dining area that offers 11-foot beamed ceilings that open to the pool terrace and screened pool house, to the grilling porch off of the kitchen, this home lives comfortably both indoors and out. The top-of-the-line kitchen, butler's pantry and walk in pantry lend to wonderful entertaining or small family gatherings. A first-floor master retreat, guest suite

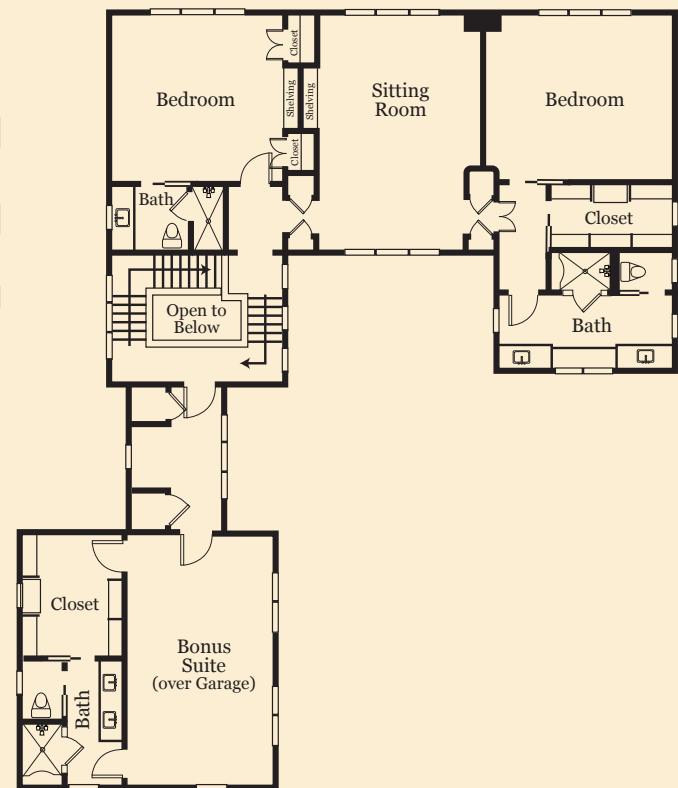

and study allow for one level living. The screened pool house serves as an additional entertaining space and offers a wood burning fireplace with vaulted ceilings. The second floor offers a wonderful guest retreat with two sizable suites overlooking the marsh and a family room. The 760-foot optional bonus room offers the ability to add a 5th bedroom and true guest house. The sunsets across the lake are truly spectacular.
